EDUCATION

Texas A&M University

Dec. 2027

Bachelor of Science in Computer Science, GPA: 3.947

College Station, TX

- Relevant Coursework: Software Engineering, Data Structures and Analysis of Algorithms, Programming Languages, Computer Systems, Discrete Mathematics, Linear Algebra, Computer Organization, Introduction to C++

EXPERIENCE

Software Engineering Intern

May. 2026 – Jul. 2026

BroadAxis

Plano, TX

- Built a production multi-tenant event-intelligence and CRM platform (real client tenants) using **Python/FastAPI**, **React**, and **PostgreSQL** with ~100+ REST APIs and a **25**-table schema across 6 industry verticals.
- Shipped multi-agent discovery and enrichment pipelines on **Azure** (search → scrape → LLM extract → dedup/score) with retries, rate limiting, and graceful degradation under App Service timeout constraints.
- Shipped **Azure DevOps CI/CD** (4 pipelines, 10+ steps) deploying frontend (**Static Web Apps**) and backend (**App Service**) with health-check gating on every push to main, plus scheduled discovery and enrichment jobs.

Software Engineering Intern

Jun. 2025 – Jul. 2025

KonfHub

Remote

- Built a **Python** generative backend POC that turns structured event details into descriptions, SEO keywords, and poster artifacts via chained **Amazon Bedrock** / **Gemini** calls and a provider-agnostic OOP generation layer.
- Improved content accuracy by ~65% and reduced formatting errors from **25% to 3%** by optimizing parameterized prompts and multi-turn prompt chaining through iterative evaluation.

Undergraduate Teaching Assistant

Aug. 2025 – Present

Texas A&M University College of Engineering

College Station, TX

- Mentored **100+** engineering and physics students in **Python** and **Go** across ENGR 102, PHYS 216, and CSCE 120 through in-class help, owned office hours, and Discord/email debugging support.

LEADERSHIP

Secretary (Executive Board)

May 2025 – Present

Texas A&M Chinese Student Association

College Station, TX

- As an executive-board **Secretary**, replaced Sheets/Forms points ops with a production **Next.js/Supabase** platform (**Postgres**, Auth, RLS) tracking **400+** events/semester for **250+** members.
- As **PR Chair/Secretary** (exec board), shipped csatamu.org in **Next.js/TypeScript**, improving recruitment by **20%** vs Instagram-only outreach.

Webmaster (Executive Board)

May 2025 – Present

Aggie Robotics

College Station, TX

- As **Webmaster** (executive board, one of **7** exec among ~15 officers), rolled out Notion task databases/subteams/permissions adopted by **50+** members and standardized Drive + meeting-note templates.
- Building the org's **Next.js/React** website and internal wiki/knowledge base (public launch pending; wiki in progress) so members and officers share a single source of truth.

PROJECTS

CSA Points Platform | [GitHub](https://github.com) | points.csatamu.org

Mar. 2026 – Present

- Built a production full-stack points platform using **Next.js**, **Supabase**, and **PostgreSQL** with TAMU **Google OAuth**, role-based access, and **20+** PostgreSQL functions/RPCs for organization operations.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, C++, Go, HTML/CSS

Frameworks & Libraries: FastAPI, React, Next.js, Flask, Tailwind CSS

Cloud & Databases: PostgreSQL, Azure App Service, Azure DevOps, Azure Static Web Apps, Azure Blob Storage, Supabase, AWS (Amazon Bedrock), Firebase

Developer Tools: Git, GitHub, Notion, Postman, Vercel, VS Code, Node.js
